

Job title : **Licensed Aircraft Engineer B1 and/or B2**  
Location : Bases Den Helder, Amsterdam Heliport and Emmercompascuum

### **Background**

Heli Holland is founded in 1976 and the oldest and biggest helicopter company The Netherlands. We transport more than 10.000 passengers annually in our onshore and offshore helicopter operations. Over 45 employees are involved in Maintenance, Flight Operations (On-shore & Off-shore) and Administration.

We operate a large fleet of Airbus (EC120B, EC155 B1, EC175B and AS355 F1/F2), Schweizer (300, 330 and 333), Agusta (AB206B Jet Ranger) and Bell-TEXTRON (206 Long Ranger) helicopters from our bases at Emmercompascuum, Lelystad, Den Helder, Amsterdam Heliport and Gdansk (Poland). We hold a wide range of approvals including AOC, ATO, Part-CAMO, Part-145 and Part-SPO.

Our Technics department provides line- and base maintenance for the Heli Holland fleet and a wide range of customers. We are also official Airbus Service Centre and provides maintenance and parts service all over the world.

Due to the current growth and near future expansion both inside and outside Europe requires us to expand the team with a Licensed Aircraft Engineer B1 and/or B2.

### **Main duties and tasks**

- Line maintenance of aircraft – pre-flight checks, daily checks
- Focal point for flight crew on technical matters
- Perform inspections, troubleshooting, repairs and modifications during base maintenance
- Provide AOG support
- Releasing the work performed by yourself and the team assigned to you.
- Administration of the work carried out in accordance with the aviation regulations
- You are jointly responsible for the technical punctuality and fleet availability of our fleet and to customers
- Supervision of mechanics and the work carried out by them

### **What you inspire us with**

- You are in possession of an part 66 AML B1.1 and/or B2 Aircraft Maintenance License with preferably an Airbus EC 155, H175 or other helicopter type training
- Comprehensive knowledge and understanding of EASA regulations including Part-145 and Part-CAMO
- You won't stop questioning until you have all the required information
- Ability to communicate and to present information clearly and concisely both verbal and written, with attention to detail
- Able to plan and prioritise effectively
- Highly self-motivated and proactive with a willingness to take initiative
- Fluent in English language
- Proficient in MS Office suite and comfortable learning new systems
- Knowledge of WinAir (maintenance software) is beneficial
- Flexible approach to work, to match the operational requirements (weekends, overnight hotline and overtime)
- In possession of a driving license B
- Passion for aviation

### **What we offer you**

- A challenging position as Licensed Aircraft Engineer B1 and/or B2
- Competitive salary and excellent secondary conditions
- An exciting and challenging task for ambitious business aviation enthusiast
- A secure job in a successful, internationally active company
- All required initial and recurrent training
- An open and respectful corporate culture
- Support of experienced and dedicated team
- Full time position
